Dance at Waitara Public School in 2015

Dear Parents and Caregivers,

Dance is a strand of the Creative Arts Key Learning Area. Dance develops knowledge and skills by engaging with the elements of action dynamics, time, space, relationships and structure. It is a creative skill that can be learnt and developed over time with practise and attention to movement.

This year all students at Waitara Public School will be performing in a Dance production that will take place late in Term 3. It will be exciting to see all students on stage, in full costume, performing dances for our school community.

We have the talented Ineigh Productions teaching and choreographing our Dance lessons for all classes K-6. Each lesson will be 40 minutes long and will enable every student to be taught the dances for participation in our whole school production. Students will be learning the dance in weekly lessons beginning in Week 4 of Term 1. Lessons will be on Monday for Early Stage 1 and Stage 1 and Tuesday for Stages 2 and 3. Students may wear their sports uniform.

The cost of the lessons for Term 1 is $24.50 and has been included in the Term 1 invoice. Please complete the form below and return it to your child's class teacher.
